[redacted]

Mr. L. Eugene Root
Lockheed Aircraft Corporation
Missile Systems Division
P. O. Box 504
Sunnyvale, California

Dear Mr. Root:

I understand that the informal discussion of the Management Survey Report which you requested during your recent visit was held at Sunnyvale on 30 September 1958 and copies of the report left with you.

I feel that the Survey Team has raised some very significant points. At your convenience, and after you have had ample opportunity to study the report in detail, I would like to arrange a meeting to discuss your reactions to their findings.

From past experience I have found that a comprehensive review usually takes about a month. Therefore, suggest a date in early November.

Sincerely,

ORIGINAL SIGNED:
B. A. SCHRIEVER
